

ExploreCME Quick Guide

Register & Purchase Access:

1. Select **Sign In** and follow the prompts to create an account or sign in.
 2. Once you return to the database display screen, select **Unlock the Questions**.
 3. Choose the appropriate access option:
 - **Individual Subscription:** Select the individual option and proceed to checkout.
 - **Institutional Access:** If your institution has purchased access, select the institutional option and enter the coupon code provided by your organization.
-

Generate a Quiz:

Select **Generate a Quiz** to create a customized quiz.

Build from Blueprint

Use Build **from Blueprint** to customize your quiz by selecting:

- Number of questions
- Organ system
- Task area
- Specific topics

Helpful tips:

- If a section is left blank, random questions will be included based on your other selections.
- If there are not enough questions in the database to meet your specifications, ExploreCME will create new questions to complete the quiz.
- Once generation is complete, your quiz will appear under **My Quizzes**.

Generate from Document

Use **Generate from Document** to upload a score report from:

- PAEA EORs

- PAEA EOCs
- PACKRAT

Select the desired number of questions per topic. ExploreCME will generate a quiz based on the **missed content identified in your score report**.

Once generation is complete, your quiz will appear under **My Quizzes**.

Take a Quiz:

Select **My Quizzes** to view your available quizzes.

Find the quiz:

The quiz panel allows you to:

- Sort quizzes by **My Quizzes** or **Faculty Quizzes**
- View quizzes assigned by faculty
- See due dates and test-mode requirements when applicable
- View the history of previous attempts
- Delete quizzes

Start a Quiz:

Select **Setup a Session** to begin a new attempt.

You can choose from:

- **Test Mode** – Complete the quiz under testing conditions.
- **Study Mode with Explanations** – Review explanations as you work.
- **Study Mode without Explanations** – Complete questions without immediately viewing explanations.

Navigate the Quiz:

Once a quiz has started, you can:

- Move through questions sequentially
- Select a specific question number from the question grid
- Use **Next**, **Previous**, and **Go To** at the bottom of the question card

Rate Questions

Use the feedback buttons to identify question quality:

- 👍 **Thumbs Up:** Good question
- 👎 **Thumbs Down:** Bad question

Review Question Statistics

In **Study Mode**, question statistics show:

- The number of times the question has been attempted across the platform
 - The distribution of responses selected by users
-

View My Statistics:

Select **My Statistics** to view your progress.

The statistics dashboard provides a graphical representation of performance across:

- **Organ Systems**
- **Task Areas**

Use these statistics to identify strengths and areas where additional study may be beneficial.

Use Flashcards:

Select **Flashcards** and choose the relevant **organ system**.

- Select a flashcard to reveal the answer.
 - Use **Previous**, **Next**, and **Go To** to navigate through the cards.
-

Manage or Cancel Your Subscription:

To manage or cancel your subscription:

1. Select **Manage Subscription**.
2. Follow the prompts to make changes or cancel your subscription.
